

IMMUNE & DIGESTIVE SUPPORT PARA 2

Developed over years of clinical trials, Para 2 Immune & Digestive Support is a multi-herb formula specifically designed for powerful immune and digestive support. The proprietary blend includes multiple ingredients whose properties maximize the body's ability to boost immune system function and detox. These include:

Kutaja (holarrhena or Wrightia antidysenterica) promotes optimum digestive health and elimination of toxins from the body.

Vidanga and **Neem** assist in removal of toxins, mold, and fungus and can be effective as it supports the body's fight against bacteria.

Triphala (actually a mixture of three beneficial fruits: amla, bibhitakhi and haritaki), takes advantage of the synergy that comes from their mixture, and promotes digestive health via phytochemicals such as terpenes, polyphenols, anthocyanins and flavonoids. Additionally, triphala contains gallic and ellagic acids, which are beneficial for blood sugar levels.

We include **clove** for its ability to assist the body in efforts to remove bacteria and because it is high in antioxidants. **Extracts of Fulvic acid** (also known as our proprietary **BioActive Carbon complex**) consist of long- and short-chain carbons that aid the body in its efforts to remove toxins systemically. Additionally, they support the body's ability to absorb more and waste less. As this supplement's effectiveness is optimized, the body is better able to process nutrients and minerals, making them more bioavailable. Para 2 creates a win-win for the body.

Recommended dosage is two capsules, twice daily.
