DETOX & IMMUNE SUPPORT VIRRADCHEM BINDER

Suffering from fatigue? Muscle and joint soreness? Lack of energy?

VirRadChem Binder from CellCore is a game-changer. VirRadChem Binder is designed to get to the source of these symptoms: viruses, retroviruses, radiation, and chemical toxins.

Whether you're suffering from Lyme symptoms, mold exposure, or even radiation from various sources, this is a powerful supplement that can provide the support your body needs to heal. Exposed to herbicides like glyphosate, pesticides, or other chemicals? This product strips viruses off membranes, binds to retroviruses and mold, and as it binds and removes radiation, can even promote thyroid health, as the thyroid is one of the most radiation-sensitive parts of the body.

We recommend VirRadChem binder as an effective maintenance tool in our overall protocol not only for its ability to bind and remove, but also its ability to support cellular energy and restoration.

VirRadChem Binder can be used as directed for maintenance or even as a foundation piece for new protocol efforts.

Since it both binds and restores, this supplement can be taken either with or without food.

Start with one capsule, twice a day and adjust dosage per tolerances. Consult your practitioner for additional guidance and support.
