

TUDCA PLUS

DRAINAGE & LIVER SUPPORT

TUDCA Plus is designed to maximize liver and digestive health.

Tauroursodeoxycholic acid (TUDCA) is a natural bile component that on its own offers a long list of potential health benefits. We've enhanced it with *melatonin*, *N-Acetyl Cysteine* (NAC), and BioActive Carbons to deliver incredible results and maximum benefits.

Why add melatonin? It is included specifically as a driver to push the benefits of TUDCA further into the body. The potency of TUDCA Plus is optimized by teaming it with BioActive Carbons and NAC, delivering maximum health benefits.

As melatonin drives, BioActive Carbons protect the components through the digestive process so they are fully active as they reach the digestive tract.

Summary of Benefits

- Helps to increase bile flow to upregulate detox and provide protection for liver cells
- Supports alleviation of mitochondrial stress
- Aids in reducing gut permeability and promoting a healthier gut microbiome
- Encourages the body to generate more glutathione to reduce inflammation and oxidative stress
- BioActive Carbons work to bind and aid in the removal of toxins that your bile is trying to purge
- Helps to lower systemic inflammation
- Assists in preventing free-radical damage

TUDCA Plus is an excellent addition to an overall treatment protocol at any stage of the game.
